General Comments

Licensing staff arrived at the licensed facility to conduct a Follow-Up License Renewal Inspection.

Upon arrival, the facility Administrator informed licensing staff that the boards with protruding nails, previously identified during the License Renewal Inspection conducted on June 25, 2026, had been removed from behind the shed and from the rear of the fenced outdoor play environment on the same day as the inspection.

Licensing staff verified that the identified hazard had been addressed and removed.

Based on the corrective action taken, licensing staff recommends the renewal of the license for the school-aged program located on Union Street.
