Comments: Deficiency is now compliant			

<b>General Comments</b>
<p>Licensing staff arrived at the licensed facility to conduct the license renewal inspection on February 23rd, 2022.</p> <p>Licensing staff was screened for Covid-19 by signing into the centre.</p> <p>All classrooms have an abundance of evidence of learning documentation posted at the child's level so the children can revisit their learning experiences. All educator were very engaged with the children while the children were engaged in variety of play activities. Licensing staff observed lovely loose parts invitations of play for the children to engage in. The children were also given lots of choice during free play activities.</p> <p>Licensing staff also observed children go from listening to music to getting out instruments and playing along with the music and also have a dance party.</p> <p>On the day of the licensing visit, it was National No Bullying Day. Most children and educators had pink shirts and other articles of clothing. The four year old children had a discussion about what bullying is and came up with their own thoughts about what bullying is. Licensing staff observed a whiteboard, in the circle time/cozy corner, with the following phrases: be kind, play with people, sharing books, helping friends, eating with friends, say kind words, say please, hands off, give hugs, and use manners.</p> <p>One the day of the license renewal inspection visit, a child was excluded earlier in the week due to a communicable disease however, a "Notice of Illness" form was not posted at the entrance of the centre. When this was brought to the attention of the operator the operator relayed to licensing staff that a letter went home to all parents informing them of the communicable disease. The operator also posted the "Notice of Illness" form while licensing staff was still in the building.</p>

General Comments

In the spring, please ensure that all protective surfacing surrounding the stationary equipment measures according to the recommended depth found in the manufacturers manual.  
Please repair the cracks in the siding located on the infant outdoor play environment. The Quality Assurance Monitor will be visiting in the Spring.
