### General Comments

During the inspection children were observed to have opportunities for outdoor play in the morning and the afternoon. Educators supported children where needed with dressing for outdoors or putting away items when they returned indoors. The outdoor space was observed to be safely maintained and pathways were cleared in the snow.

Children were offered food at regularly scheduled snack and lunch times. Educators supported children when needed with eating. Educators prompted children to wash their hands during transitions between activities and to tidy up after their meal if they were able.

Educators were observed to be patient with children who were experiencing strong emotions. Educators supported children through these feelings and comforted them with hugs and engaging conversation with them.

Ample materials were observed in each classroom and were well maintained. Each room had age-appropriate books, art supplies, building materials, costumes, and other varied toys available at an accessible level for the children. Educators were observed engaging children in storytime, singing, and play. Educators sat at the children's level to engage with them.

All staff files were observed to be complete and up to date. All observed children's files were complete and organized. All required postings were maintained. Documentation of learning was observed throughout the centre including on the walls in the form of recent artwork and written learning stories.

I recommend this licence for renewal.
