<p>General Comments</p> <p>Licensing Staff arrived this morning to introduce new Quality Assurance Monitor and perform a Monitoring Inspection. Upon arrival, all classes except infants were observed playing outside. The infant class was inside starting lunch. Outside children were listening to music, dancing, playing on the wooden play structure and playing with beach balls. Educators were singing and dancing along with the children.</p> <p>The 3's Class were excited as they were having an outdoor picnic. The Educator brought the children inside to get their water bottles and lunches. Hand washing was observed before they returned outside for the picnic. Once the children were finished they lined up for inside to begin quiet time. Soft music was played and the transition was smooth. All children were observed resting quietly on their cots while the Educator mopped the floor.</p> <p>The 2's Class had their lunch inside. Educators sat at the table and ate with them. The Educators were heard encouraging the children's independence. "I can show you how to close the container, and then you can try it. Good Job!" The transition from lunch to quiet time was smooth. The children cleaned their hands and face when they were finished eating and went to lay down on their cot.</p> <p>In the infant room, there is a new infant who is adjusting to the sleep schedule. An Educator sat with the infants who were awake, singing "The Wheels on The Bus" quietly to them while the others rested.</p> <p>Monthly fire drills are being performed and attendance is being recorded daily. All children's belongings were labelled and tidy. The classrooms had family pictures, current learning stories, artwork and learning materials posted at the child's level. Parent boards showed evidence of planning and documentation of the children's activities and current artwork. All rooms were clean and organized. Wooden material, sensory bottles, plants, mirrors, art supplies were in good condition and available for the children's use.</p>
