<p><b>General Comments</b></p> <p>Staff and child attendance reviewed during my visit. All in order. Reviewed new staff information and all in order.</p> <p>The two's room looks great - Operator has widened the door between the 2 rooms and this has made the space more open and useable. I discussed with the 2's Educator to change up children's book selections often in the book corner (also display books in other centres) and ensure lots of choices are made available on the lower shelves for children. This permits independent selection and allows choice of activities.</p> <p>All age groups enjoying a busy morning involved in a variety of educational and age appropriate activities. Lots of interaction observed between educators and children.</p> <p>Lots of wonderful program documentation displayed throughout the facility and also in the children's cubbie area.</p> <p>Outdoor gate is not latching and needs to be secure when children are playing in the outdoor play area.</p> <p>Please ensure an Application for Change is submitted when making any change to your centre, i.e. other changes like moving children to different rooms. This type of change would only include the approval of the Quality Assurance Monitor. The Operator moved the 3 and 4 year olds from the top floor and relocated this age group to the middle floor of the building. The After Schoolers are now on the top floor. I believe this move is much more practical so that Educators have the ability to group 3 and 4 year olds together or separately. Illness Notice Posted. Please file after 1 week if no further illnesses documented.</p>
