<p><b>General Comments</b></p> <p>When I arrived to do the renewal inspection, I was promptly screened and my temperature was taken by an educator before I entered the building. During my visit, I maintained a distance as much as possible and so my time in each room was limited and I observed from a distance.</p> <p>During my visit, I observed positive child guidance such as encouragement, redirection, and distraction by the educators. I observed the educators actively participating with the children in their play and learning. There was documentation of the children's learning on the walls such as currently dated learning stories.</p> <p>Each classroom has it's own entrance and so distance is maintained between groupings at drop offs and pick ups. I observed proper hand washing by the educators and children, and I also observed the cleaning and sanitizing of toys. Signage is up as per the COVID-19 guidelines, and the necessary postings for licencing are also displayed.</p> <p>The staff and child files were inspected and they are organized and contained all necessary documentation for licencing. I noticed that each classroom had necessary paperwork and information related to COVID-19 guidelines as well.</p> <p>Everything was in compliance with licencing regulations and I recommend the renewal of their licence.</p>
