Name of Early Learning and Childcare Licensing Staff Jenelle Hanscom		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Licensing staff arrived as children were eating their morning snacks which they had brought from home. Educators were observed sanitizing the tables after children had finished eating.

The room contained a sufficient amount of materials which were on the children's level and developmentally appropriate. The children were directed to an art activity for valentine's day which they colored, cut and pasted themselves. Children were able to display independence and creativity during this art activity. Educators were seated with children during this activity and were observed providing assistance to children when needed.

The room had visuals posted with their daily routine which was a nice addition to the room and helped to provide visual prompts for children. The classroom provided support to all children and also displayed a strong and positive connection to the school which will make for an easier transition for children going into school. Positive behaviour guidance was observed at all times.
