General Comments
<p>Licensing Staff arrived to perform a Monitoring Inspection. Upon arrival, the children were all sitting at a table engaged in an apple craft. The Educators were sitting with the children at the table as they completed their activity. As the children finished up, one Educator hung the artwork up and got the children ready to go outside while the other Educator cleaned the tables. Multiple reminders were given for the children to bring their water bottles outside. They all lined up behind the Educator as they marched outside.</p> <p>On the playground the children were seen playing on the swings, a climbing wall, the play structure and rolling down a grassy hill. The Educators were engaged with the children, swinging with them, offering assistance when needed and giving praise, " Look! You are doing it all by yourself, great work!" "Of course I can help, I love hearing those magic words!". The Educators were well spread out on the playground, ensuring all areas were supervised. Water bottles, first aid kits and the attendance binder were brought outside.</p> <p>The transition back inside the classroom was smooth. Proper hand washing was observed as they made their way back inside. Once inside, they gathered in the middle of the classroom for songs and games. Once the songs were finished, the children gathered their belongings and got ready for pick up. Throughout the visit positive child guidance was heard from all Educators in the room. The children were seen laughing and smiling, they appeared familiar with the routine and comfortable in the environment. The children's belongings were labelled, and their cubbies were tidy and clean.</p>
