### General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, the children and Educators were in the kindergarten classroom. The children have been spending time with the kindergarten class lately to get comfortable with the teacher and classroom in preparation of this fall.

While with the kindergarten class, the preschool age children were observed drawing pictures, building houses and cars with magnetic tiles, preparing and serving food in the play kitchen area and making Lego creations. When it was time to head back to their classroom, the children helped clean up before lining up at the door. Once back in the classroom the children prepared to have their preschool graduation pictures taken. One Educator was observed taking the children outside for their picture to be taken while the other Educators remained inside and started morning snack.

Transition periods were smooth throughout the morning. The Educators communicated with one another to ensure everyone was aware of the morning plan. Once morning snack time was over and all children had their picture taken, tables were cleaned, and floors were swept. One Educator sat with the children and read "Me and my dad" before getting ready to go outside. All children used the washroom, put on sunscreen and packed up their belongings before going outside. Only positive child guidance was observed during today's Monitoring Inspection. The Educators were attentive to the needs of the children, spoke to the children kindly and were observed offering hugs.
