General Comments
<p>The facility is equipped with many learning centres and the children are able to freely move from activity to activity. The Operator is very kind and patient with the children; engaging in conversation and activities with them continuously. The Operator takes interest and listens to the children intently.</p> <p>The program for the children is intentional, planned and focusses on the children's interests. Documentation of the children's work is posted throughout the facility.</p> <p>The outdoor play space has a nice natural element to it with many learning centres for the children to enjoy. Operator was advised that dome, swing set and slide are too close together and must have 6 feet clearance in the encroachment zones. This include 6 feet to where the arc of the swing extends. There is enough surfacing underneath the equipment but not enough clearance. Operator stated that they will find a way to fix it as the dome is new. Licensing staff recommends that equipment is not used until requirements can be met. This facility closes for the summer months. Outdoor play area to be inspected in the Fall when facility opens again.</p>
