General Comments

Licensing staff arrived as the three-year-old group was engaged in free play. Children were observed to be engaged with dramatic play kitchen, building with wooden blocks, Playdough, painting and driving on the car mat. The educators engaged with children throughout this time and provided assistance as needed. This group of children has just begun the preschool program and have settled into the facility nicely. All children were engaged and happy throughout the inspection.

A song was used to transition children from free play to their clean up routine. The educators spoke softly to the children and explained and modeled the routine for the children so they clearly understood the transitions and expectations. The children are learning and establishing their routine with the educators and with little help lined up for the bathroom before enjoying their snacks which they brought from home.

Please ensure all children are signed into the daily attendance upon their arrival to the program.

Positive behaviour guidance was observed at all times.
