28(3) The premises of a licensed facility shall comply with (a) lighting, ventilation and other general health standards under the Public Health Act.	28(3)(a)	Jun 27, 2022	Jun 27, 2022
Comments: Observed a staff changing a diaper and once the diaper was changed they put the child down on the floor without washing the child's hands. The educator also picked up another child to change without washing her hands. Please ensure that diaper changing routine is being followed at all times. I spoke to the educator and this was rectified at time of visit.			

General Comments
<p>There was many more learning centres set up at the time of visit. The children were engaged in different kinds of play and the documentation for their learning is displayed through pictures, artwork and learning centres throughout the facility. I did speak to staff regarding having a pre-planned program that details the children's interests. I will be referring daycare to the quality assurance monitor and curriculum support to help with this.</p> <p>Educators were engaged with children at their level by talking and playing with them. Observed an educator helping the children resolve an issue. They were kind, caring and supportive to the children while listening to each child speak.</p> <p>Files are meticulous. The administrator is very organized and all records could be easily verified for licensing.</p> <p>I can recommend facility for licensing.</p>
