Name of Early Learning and Childcare Licensing Staff Nancy Glendenning		Position Title Inspector	
Order for Compliance	Regulation	Date to be corrected	Date corrected

<p>General Comments</p> <p>Program planning is a process that engages the children and reflects on the children's interests, passions, strengths, and abilities. The daily program must incorporate the interests of the children. As many new staff are being trained in this area, please continue to develop the program plan in each room. Licensing staff should be able to review all pre-planned programming for each age group served for all months leading up to the renewal inspection. There was artwork, learning stories and pictures posted in some of the classrooms.</p> <p>Each room has well-defined learning centres set up for children to carry out the intended activities. This is a positive change from the inspection last year. The environment now has many learning opportunities for children including dramatic play, sensory, reading, blocks, art, and construction areas to name a few.</p> <p>First Aid kits are available on site. Please review the current requirements and make the changes as needed. Also, pay attention to expiry dates as some items do have them.</p> <p>The area surrounding the outdoor play space has been completely cleaned up. The storage shed that was deteriorating has been completely removed.</p> <p>Files are organized and complete. Licensing staff was easily able to verify all information for the license renewal. There are educators whose first aid certification expired today. The educators recently took the course. Please ensure that copies of their certificates are put into the staff files once received.</p> <p>Please remove the garbage can from the preschool outdoor play space. It has a hole on the side of it with rough edges.</p> <p>Educators are very kind and caring towards the children. They were seen comforting children when they were upset, redirecting negative energy in a calm manner, speaking to them at their level and engaging in play with them. Only positive child guidance was seen at the time of visit.</p> <p>Licensing staff can now recommend facility for licensing.</p>
