General Comments
I was screened upon arrival and the center appears to be following COVID guidelines well. There were no children present at the time of my visit, but I looked at indoor and outdoor play areas as well as postings and staff files. The staff files contain all necessary information and checks are up to date. The younger school age classroom has been changed a little to make more centers. The older school age children's room is set up well with a variety of activities for the children. The outdoor play area requires some repairs and protective surfacing. The dome will need protective surfacing, and will also need to be anchored in place. The administrator said that they are going to remedy it as soon as possible.
