### General Comments

The children were playing outside when licensing staff arrived at the licensed facility to conduct a monitoring inspection visit.

Licensing staff observed the children swinging on the swings, building a castle in the very large sandbox and engaging in dramatic play around the huge tree located on the outdoor play space. This same tree creates an abundance of shade for the outdoor play space.

Licensing staff noted that there was ample protective surfacing surrounding the swing set as well as the dome, which is also anchored down for safety.

Please ensure the protective surfacing surrounding the climbing wall structure is raked up and measures what is required according to the manufactures manual.

Positive child guidance techniques were used by the staff during the inspection visit.
