39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (b) medications.	39(2)(b)	Oct 22, 2020	
Comments: Although the medications in each classroom are currently locked with child safety locks, they must now be locked with a lock and key.			

<p>General Comments</p> <p>I was screened and my temperature was taken upon my arrival. The center is clean and has a variety of age-appropriate materials for each classroom. There is children's work displayed on the walls and planning is evident. I observed the educators being attentive to the needs of the children and they demonstrated positive child guidance. Staff and child files are well maintained and contain all necessary documentation, and all required postings for licencing regulations are displayed.</p> <p>COVID guidelines appear to be followed, and I observed proper hand washing, cleaning and sanitizing of materials, and proper screening and use of temperature logs. The classrooms take turns using different play areas in order to ensure that distancing is happening between the 'bubbles' during outdoor time. There is appropriate signage up at the entrances.</p> <p>The program appears to be running smoothly with meeting licencing regulations and the COVID guidelines.</p>
