<p>General Comments</p> <p>Licensing staff arrived to perform a regular monitoring inspection and to observe the newly added cribs in the infant nap room. Nap room cribs were well maintained, safe and clean. Nap checks were performed every 15 minutes and documented appropriately.</p> <p>Stick vacuum currently in nap room is to be relocated to a different area as the nap room cannot serve as storage for other items. Sound machine needs to be relocated so that it is plug in away from the cribs making it impossible for infants to have access to the cord while in their cribs. Operator has agreed to relocate the vacuum and move the sound machine to another available plug in further away from the cribs.</p>
