**General Comments**

Children were in the outdoor play area when I arrived. They were participating in a variety of activities such as digging in the sandbox, driving the little tykes cars down the hill, and playing at the water table. The classrooms have a variety of age- appropriate materials and are clean and organized. The walls in each classroom have family photos, children's artwork and learning stories posted. The children and educators have been planting seeds for their gardens. They have planted tomatoes, peppers and cucumbers. During lunch time the educators were observed sitting and talking with the children and assisting them to open packages when needed. The children are familiar with the lunchtime routine of eating, cleaning up and going to their cot for quiet/nap time. Staff files are well maintained and contain the required documents. The facility seemed to be running very smoothly during the visit. The children seem very comfortable in the environment.
