

## Early Learning and Childcare Facility Inspection Report

Type of Inspection:  
Monitoring Inspection

Pursuant to section 21 of the *Early Childhood Services Act*, operators of licensed early learning and childcare facilities must post their most recent inspection report in a clearly visible and prominent place in the facility.

### General Comments

- Visit completed at the facility in the morning for a monitoring inspection.  
- Ratio was respected during the visit.  
- Positive child guidance was witnessed during the visit. The educators were engaged in the children's play. Educator was observed engaged with children at their level providing support and having conversations.  
- Children's files have the required documentation. 15 files were verified out of 41. The consent forms are signed and dated by the parent/guardian.  
- Administration of medication records are evident. Records are kept for each child when medication is administered.  
- Observations:  
2–3-year-old room: During free play the children were playing with the blocks, the dolls and the cars. The educators organized a game of Simon says. The children seemed to enjoy the activity. The children washed their hands and ate their lunch. Before naptime time, the educators read a book to the children. Diaper changing was witnessed.  
4-year-old room:  
The children washed their hands and ate their lunch. It is crazy hair day at the daycare. The children did not go outside because of the windchill. During free play the children were playing with the costumes and creating art.  
- Discussion with the director on the children's files. Two files are missing the name, phone number and address of the medical practitioner. The afterschool educator who has not completed the CPR training is not permitted to be alone with a group of children, to open or close the facility.
