General Comments
<ul style="list-style-type: none"> - The two employees who were doing their on-line training are done and are waiting for their certificate. - The address for the emergency contact person is missing some information, the Medicare expiry date needs to be revised. - Visited the 2-year-old room during nap time, saw documentation that was at the children's level. The port folio shows the learning and interest of the children. - 3-year-old room: The children are into the ocean. I could see the theme all around the room, the educators explore and open the subject. The port folio is showing the involvement of the children's learnings. - 4-year-old room: The children are into volcanos. They made me a demonstration of a real volcano with baking soda and vinegar. They new all the steps and the name of the material. Documentation is every where in the room, the children's interest is well known to the educator. Ensure documentation is dated and signed.
