| <p>General Comments</p> <ul style="list-style-type: none"> -Visit to the learning center for an unexpected monitoring inspection -Ratio was respected during the visit -Indoor environment provides for children a space that is safe and clean. The material is varied and in sufficient quantity for all children present, easily accessible on low, open shelves. -Toxic products, and cleaning supplies are locked and inaccessible to children -Children's guidance is done in a respectful and positive way -Daily routine into the center includes; Outdoor play time at least once every 4 hour blocks time when the weather is permitting. Meal and snacks are served at the recognized hours and a daily rest period that meets the children's needs. -Educators are using the curriculum in the language in which services are provided -Proof on premises that educators have completed 10 hours of professional development per year. -The operator has implemented and is monitoring the quality improvement plan. -Hot beverage was found the cabinet in a rooms, it was put away immediately. Had a discussion with staff about no hot beverage in the children's indoor and outdoor play area -A first-aid kit and a phone are always accessible on site and on outings. <p>Observations: Went arriving at the center the fours were practicing for their graduation, there was signing, dancing and rhymes. I could see literacy, numeracy and documentation showing the children's interest and learning. The three-year-old room was reading a book on rain drops and they did a science experiment afterwards. I could see within the room documentation on families, warm, rain, and senses. The twos were going outside, they have planted seeds and were watering a plant.</p> |
