39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;	39(2)(a)	Jul 20, 2026	Jul 20, 2026
Comments: Cleaning products were observed in an unlocked cabinet under the bathroom sink in the infant room and in an unlocked cabinet in the 3-year-old room. Upon request, all cleaning products were immediately removed and placed in a locked cabinet. Educators and operators were reminded that hazardous products must be stored in a secure, locked location that is inaccessible to children at all times. Deficiency is now compliant			

General Comments
A visit was conducted to complete the annual inspection. The child-to-staff ratio was maintained at the time of the visit. Throughout the morning, groups of children were observed rotating between outdoor play and indoor free-play activities according to the daily schedule. Following lunch, the infant group and the two-year-old children settled for nap time, while the older children engaged in quiet-time activities and outdoor play. Facility meets requirements under the Act and regulations and renewal of the licence is recommended for another year.
