General Comments

-Visit to the center to complete a monitoring inspection.
 - Ratio was respected during the visit.
 - The indoor space provides a large variety of material for children to explore, create and play. The space is safe, and the material is well maintained.
 - I observed that the educators used positive child guidance technique, they are respectful to each child rhythm and attentive to their needs.
 -The center has created a pop-up walk with pieces of documentation outside for parents so they can be made aware of activities that are being done during the day. Documentation is present in every room, at the children's level.
 -Rooms are inviting and very welcoming, zones have been created with the children's interest in mind.
 -The visit was made during nap time, all children were napping, except of the four years' old were playing outside.
