General Comments

Visit to the facility today to complete the annual inspection.
Ratio was respected during the visit.

A new change pad was added to the 2/3/4 room during the visit and a new diaper changing procedure was added to the 15-23 month old room.

Recommended to the director that the ground around some of the fence be dug out to ensure the fence meets the 1.22m height requirement in all areas.

Observations:

Upon arrival all of the children were outside either on a walk or playing in the outdoor play area. All children came in, cleaned up and had lunch. After lunch the infants and two year olds had a nap and the older preschoolers returned outside.

Various types of documentation are present in each room that display the children's interests and what they are learning.

School aged children were not present as they were in school.

Facility meets requirements under the Act and regulations, license will be recommended once the fire marshal inspection is received.
