General Comments

- Mid day visit to the learning center for an unexpected monitoring inspection
- Ratio was respected during the visit
- All staff have all required documentation into their files and a valid First Aid certificate
- Guidance of the children is done in a positive, respectful, and constructive way.
- Outdoor space provides children with a safe environment to play, create and explore.
- All fenced in space provides children with 10% of shades
- Material and equipment provided for children in the outside space are varied and sufficient for all children present
- Outdoor play area consists of more than one surface to permit different types of play

Observations: When arriving at the center children were playing outside. When going into the rooms children were eating their lunch, the youngest transitioned to nap time while the oldest went outside to play. In the infant's room they have started to sign in their attendance by themselves every morning, they are into pictures of themselves and their families, educators have posted it in photo albums, blocs and tubes. The Two's are into birds, they are learning about different kinds of birds and to identify them, staff are also connecting the birds with dealing with their emotions. The Three's are into butterflies, sharks and pizza, they are also learning about shapes and connecting with different shapes in nature. The four's are getting ready for graduation, they are very much into how much they have grown since the beginning of the year, they were also working on an interest in them, ice cream.
