General Comments

-Mid day visit to the establishment for an unexpected monitoring inspection
 -In all group ratio was respected during the visit
 -Posted on a shelf next to the administrator's office is: The license, inspection report, orders for compliance, daily routine, evacuation procedures, name of administrator, name and telephone number of QA Monitor/inspector and life-threatening allergies.
 -When it applies, a notice to inform parents of the existence of a communicable disease is posted on the main doors.
 -Monthly emergency evacuation and fire drills are completed
 -A monthly review and maintenance plan is completed on all stationary equipment
 -Children and staff daily attendance are maintained on site
 -Children's indoor play area is safe and clean
 - Material and equipment proposed to children in the indoor play area are easily accessible on low, open shelves. It is varied and in sufficient quantity for all children present.
 -Each napping child has a cot that is appropriate for their height and is in good repair
 -Toxic products, and cleaning supplies are locked under key and are inaccessible to children
 -Administrator and staff confirm that all bedding material is washed by the staff once a week
 -The daily information sheet for infants (0-24 months information about the child's mood, eating schedule, rest time, diaper changing) is completed every day and kept in their room until the child turns two and then it is stored in the office
 -The four's are doing a book study of the chalk book, and the two's are very much into brown bear book. In each room documentation shows the children's interest and recent learning
 Observations: When arriving at the center it was nap time for the infants and the two's, all were asleep. The three's and four's went out together to a sliding hill next to the center. Slowly, the youngest children got up and the oldest children got set up for snack.
