General Comments

Licensing staff arrived at the licensed facility to conduct a license renewal inspection, while the children were playing outside until all children arrived at the facility.

After outdoor play time, the children went indoors to wash up for preplanned activities. The educators provided three invitations of play for the children to engage with once they washed their hands. Invitation 1 consisted of a duotang, for each child, that contains pages of the child's name printed for the children to recognize, trace, print and colour. The children enjoyed this activity as they were asking licensing staff to come and see how they were tracing and colouring and printing their name on the paper. Invitation 2 consisted of Lego that the children enjoyed building figures with. Invitation 3 consisted of a loose parts activity with pumpkins the size of baseballs, plastic, coloured people figurines and various sized and shaped logs, and small plastic gems. A child built a path using the logs and another child built a tower using the logs, pumpkins and gems.

The class had an organized circle time before washing up to have snack.

After story time, the children did a painting activity with small white pumpkins and a variety of paint colours for the children to paint their pumpkin.

Licensing staff recommends the licensed facility for their license renewal.
