### General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival the children were engaged in a variety of activities such as painting, building a railroad track and making food in the play kitchen area. The Educators were observed sitting with the children, engaged in conversation. The classroom was bright, organized and welcoming.

Throughout the morning the children had the opportunity to participate in group activities and individual free play. Several invitations were set up as the children entered the classroom such as loose parts and water colour painting. Hand washing was observed before and after the children had morning snack. The children appeared to be getting familiar with the routine of the classroom and appeared to be comfortable with the Educators and environment.

Only positive child guidance was observed during today's Monitoring Inspection. The Educators were patient and spoke kindly to the children. Throughout the morning the Educators were observed helping the children build on fine motor skills such as opening and closing containers, and packing their bookbags at the end of the morning. As a reminder, please ensure the Renewal Application is completed and sent to your Quality Assurance Monitor as soon as possible.
