General Comments
<p>A renewal inspection occurred today. Children were observed both indoors and outdoors. Children had soup and sandwich for lunch that all seemed to very much enjoy.</p> <p>Educators provided a wide variety of materials to help children with language to theorize, describe and articulate their actions on objects. They observed and revisit experiences to discuss what works, what does not and what next within the environment.</p> <p>Materials were displayed at children's level and can be independently accessed. They were organized and labelled (with photos as well) to support maintenance and care.</p> <p>All checks were observed and complete. All staff and a random review of children's files were observed and complete.</p> <p>Admin has materials currently on order for outdoor environment. Outdoor environment is part of the facility's quality improvement plan. Inspector will observe during follow up.</p>
