Order for Compliance	Regulation	Date to be corrected	Date corrected
21 The daily activities of a licensed facility shall be purposely planned in advance and documented and shall respond to the capabilities, needs and interests of each child.	21	Jun 28, 2022	
Comments: Educator in the older preschool room does not have transitions planned to minimize wait times. Children were sitting at the tables waiting for longer than is reasonable to start "circle time". QA Monitor observed children fidgeting in chairs, picking on each other & jumping up from their chairs, staff were heard repeating sit down, don't touch your friend and constantly correcting the behaviours that were arising from the long wait. Transitions need to be planned to be shortened and go more smoothly. Operator and staff must revise the daily schedule to include transitions, staff must document the songs, rhymes or other activities that they will use for the daily transitions.			
24(1) For the purposes of subsection 20(1) of the Act, the following records and documents shall be maintained on the premises of a licensed facility: (f) daily attendance records of the children on forms provided by the Minister.	24(1)(f)	Jun 21, 2022	
Comments: A child who was transitioned from one group to another was still recorded on the old attendance records and was not recorded on the attendance records for the new group. Attendance records must be accurate and reflect the children present.			
28(3) The premises of a licensed facility shall comply with (a) lighting, ventilation and other general health standards under the Public Health Act.	28(3)(a)	Jun 21, 2022	
Comments: An educator in the older preschool room was observed using one wet facecloth to wipe all of the children's hands after doing an art activity. Children cannot share the same cloth to wipe their hands as this transmits germs. Children's hands must be washed with soap and water in accordance with the Prevention and Control of Communicable Disease guidelines.
