<p>General Comments</p> <p>The Inspector was onsite to complete the renewal inspection and observed the children transitioning from lunch into the rest period. Some children began their rest period, while those who did not wish to nap were actively engaged in an activity with an educator in an alternate classroom and later transitioned outdoors.</p> <p>In the afternoon, the Inspector observed children waking from their rest period and transitioning to join the other children in outdoor play. The Inspector also observed the arrival of after-school children returning from school.</p> <p>The Inspector and Operator engaged in discussion regarding the center's daily routine, specifically lunch and the nap/rest period. As outlined in the approved daily routine, lunch is scheduled to occur from 11:30 a.m. to 12:00 p.m., followed by the nap/rest period. During the inspection, the Inspector observed children participating in the nap/rest period beginning at 11:30 a.m. It is noted that the Operator is required to adhere to the approved daily routine and ensure that lunch is offered at the designated time followed by the nap period.</p> <p>The ratio is respected during the renewal inspection.</p>
