<p>General Comments</p> <p>Licensing Staff arrived at the facility to conduct a Monitoring Inspection. Upon arrival, both Educators had walked to the school to meet the children for the end of day dismissal. On the walk back to the facility, one Educator was observed at the front of the line, and the other Educator was at the back of the line. Once back at the facility the younger group went inside first to hang up personal belongings and wash hands. Once the younger group was settled inside, the older group transitioned inside.</p> <p>Hand washing was observed before the children had afternoon snack. As the children finished eating, lunch boxes were packed away and they had free play. Today was Pajama Day at school so several children were dress in pajamas and brought stuffed animals from home. In one of the smaller rooms, a group of children gathered together playing "house" with their stuffed animals. Another group of children have been working on building ships out of Lego this week. The children explained they built several ships with secret rooms on it to hide their gems in. Later in the afternoon the Educator got out a felt board with felt mountains, lake, animals, trees and tent. The children were observed smiling and laughing as they created a story using the different felt pieces.</p> <p>In the older group, a group of children sat together at a large table playing card games. The children also had fake cellphones which they use to make pretend phone calls on. The Operator was heard joking and laughing with the group as they played their games. Only positive child guidance was observed during today's Monitoring Inspection. The Educators were engaged in conversations with the children and showed a genuine interest in their activities. Attendance records were up to date, and the posting board contained all required documents.</p>
