Comments: Deficiency is now compliant			

General Comments
Follow up inspection was completed today. All orders for compliance have been corrected. An outdoor storage box has been added to the school age outdoor environment to store the children's materials and equipment. New materials and equipment (ex: picnic table) have been added to the outdoor environment as well. Discussed bathroom sink on school aged side with operator. The chips have been repaired and it is no longer

General Comments

leaking. Recommending that the sink bowl is replaced by next years renewal inspection due to its history of chipping.  
Essential and Routine Services Plan has been completed for a child on site and was observed within the child's file today. This should be reviewed and signed annually with parent/guardian.  
  
Recommended for license renewal.
