General Comments

Monitoring Inspection:

Children and educators observed engaged in a variety of activities this morning including stories, art, a talent show, bean bag bowling, dramatic play, painting, water play and outdoor play. The school-age children and their educator were engaged in an art swap activity; each person drew a picture for two minutes and then they swapped and added to each drawing.

The indoor play area is set up with a variety of accessible, well organized and open-ended materials that allow children to explore freely.

Purposeful planning is evident throughout each environment. Documentation, photos, and open-ended art projects are displayed in a way that allows the children to revisit their learning experiences. An ongoing art project is displayed in a fishing net with children's sea creature creations added to it. Invitations are set-up in both the indoor and outdoor play areas for the children to explore.

Hand washing routines were observed.

Monthly fire drills are documented.

Daily attendance records are accurate and reflect all children present.

Child-to-staff ratio was observed to be met during Monitoring Inspection.
