Address 20 Randy Jones Way Quispamsis NB E2E 0P1		
Name of Early Learning and Childcare Licensing Staff Breanne Jones		Position Title Inspector

Order for Compliance	Regulation	Date to be corrected	Date corrected
28(3) The premises of a licensed facility shall comply with (a) lighting, ventilation and other general health standards under the Public Health Act.	28(3)(a)	Jun 30, 2020	
<p>Comments: Hand washing: One group of children did not wash hands before going outside to use playground equipment. Hand washing must occur before and after using the playground equipment. Some educators were wearing masks today (during screening or when needing to enter into another group's space). Hand washing is not happening after masks are handled/adjusted. Educators must wash hands after removing or adjusting masks (Previous comply by date of June 25/20)</p> <p>Screening: Temperature checks-Some children under the age of 12 are being screened using the thermometer without contact. For children under 12 years of age, a contact thermometer (armpit or ear) must be used. The thermometer on site is the correct type, however, it was used improperly today at time of inspection (Previously discussed on June 25/20, see report).</p>			
39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;	39(2)(a)	Jun 30, 2020	
<p>Comments: Pad lock was left unlocked on the cabinet within the girls washroom containing toxic products (car washer fluid and Windex). Toxic products must be locked and inaccessible to children. Educator was asked to lock cabinet at time of inspection today (Previous comply by date of June 25/20).</p>			
39(3) Despite paragraph (2)(b), medications administered in cases of anaphylactic shock shall not be stored in a locked space.	39(3)	Jul 01, 2020	
<p>Comments: One child's Epipen could not be located on site during inspection. Staff and administration were not aware of storage location for child's Epipen. This information must be known to all staff at all times. Ensure documented protocols for all life threatening medications are reviewed with all staff immediately. For children with Epipen's and other life threatening allergies, an Allergy Management and Emergency Plan should be completed. See Appendix 4 in Operator Manual. This document should be stored within the child's file and a copy kept with the medication. These medications should be unlocked but inaccessible to children. This child's Epipen was found later today following the inspection after brought to the staff's attention.</p>			

General Comments

Monitoring inspection completed today to follow up on outstanding compliance orders. Some improvements noted (facility has developed a more frequent washroom cleaning schedule which is now

General Comments

posted, and each group has their own sanitizing solution), however orders for compliance still remain. More staff training is required around Epipen's and Allergy Management and Emergency Plans. Please review with all staff and ensure that all staff are aware of all children who have life threatening allergies and their protocols. Each room should have a designated area (bins or backpacks) to store Epipen's or medications for life threatening conditions that is unlocked but inaccessible to children. Ensure that a copy of the Allergy Management and Emergency Plan is stored with the child's medication.
