General Comments
<p>A renewal inspection occurred today. The children were observed both indoor and outdoor environments and also in the pool. They were playing " Gaga" ball, making cupcakes, creating with art and so much more.</p> <p>The educators were observed engaged, listening carefully and following along with the interests of each child. They were supporting the growth of children's friendships during indoor and outdoor opportunities. Evidence of children's ongoing group project work and individual work in progress were documented throughout the physical space.</p> <p>Checks were observed and complete, as well as all staff files and random review of children's files.</p> <p>Inspector had conversation with admin about individual centers being set up when the follow up is conducted. Materials were moved around to accommodate games the children were playing. Learning environments need to be inspiring and invite engagement of all the senses. Also note admin will send paint work order once complete to mark as compliant.</p>
