General Comments

I was screened and my temperature was taken upon my arrival. The rooms log children and their temperatures everyday. This morning all the children were outside playing. The outdoor play area is spacious and each age group has a part of the playground to play on, following the COVID guidelines. I observed hand washing being done regularly.

Both the infant and preschool playgrounds have a variety of materials for the children to play with. I suggest to rake the pea gravel under the structures as it's getting displaced around the swings and slides. One class went for a walk after playing on the playground. They showed me that they log every walk, who is there, and where they go. This is a great practice to be doing. The other classrooms played outside until lunch time. The children appeared to enjoy being outside. The educators told me that yesterday they did painting and water play outside yesterday afternoon and may do that again today.

The classrooms inside have a variety of materials for the children, and it appears to be very clean. Children's art is displayed on the walls, and some classrooms post learning stories as well. The infant daily information sheets are being kept up to date, as well as the attendance records. All necessary postings are displayed.

I observed an abundance of positive child guidance by every educator present today. I saw care, patience, kindness, respectful communication. I also observed the educators demonstrating active listening, encouragement, positive reinforcement, gentle reminders, time warnings and distraction.

Everything appeared to be running well during my visit.
