<p>General Comments</p> <p>Upon arrival I was screened and my temperature was taken. The center appears to continue following COVID guidelines well. The children arrive from school at different times, and they have a snack when they arrive at the center. Today the children played outside. The outdoor play area is spacious and appears to be well maintained. There are a variety of materials for the children to play with outside. Each group of children have their own supply bin as well, which contain art supplies. Some children chose to ride on tricycles, while others painted, and some played catch. One group of children showed me caterpillars they found. They were excited about them and were making them houses.</p> <p>I looked at a sample of child files and all necessary information was included in each file. I also saw the proper use of potential illness forms, return after exclusion forms, incident report forms, and administration of medication forms. Paperwork appears to be up to date and well organized. During my visit, I did not have access to the staff files, and so I will require to see them as soon as possible.</p> <p>The staff showed a lot of positive child guidance during my visit. I saw educators using techniques such as gentle reminders, encouragement, active listening, appropriate humor, suggesting alternative choices, and positive reinforcement.</p> <p>The program appeared to be running well during my visit and the children appeared to be having lots of fun.</p>
