### General Comments

This is the inspector's first visit since the initial relocation. More learning centres have been put into place offering the children a variety of materials and experiences within the classroom. Today the educators were offering the children an electronic day where they are allowed to have their electronic devices within the facility. The other centres were available to the children who chose to not take part.

For snack, the children were offered two of the following items: yogurt drink, muffins, cheese strings or apples.

Educators are meeting the busses at the road, doing counts of children and checking busses if they are missing children.

Educators were observed being engaged in the children's play and conversations. They really showed they cared by listening and interacting with them.

It was noted during the inspection that your current license has an error on it. It states that you are licensed for 60 children however after the relocation this license was measured for 53 child spaces. The person in charge stated that the Operator is aware of this error and licensing staff advised that his will be fixed on your next license.

Documentation for licensing was easily verified. Licensing staff can recommend facility for licensing.
