General Comments

The French school only had half a day today so there were 3 children present with 1 staff at 11:30, The staff was engaged with the children doing bead art. The interaction was kind and positive. She used encouraging words to support the children and appeared to have a good rapport with them.

Nancy advised one of the administrators and the educator to document the children's activities so that when it is time for an inspection the yearly activities can be verified. Going forward they advised licensing staff that they would do this in a scribbler. The educator was able to verify some of the activities through pictures. For example, the children had a day where they played LIMBO and another day where they had a nail / tattoo day. The environments for both the younger and older school age children are complete with many learning centres and materials.

At 2:40 there were 21 children present. The children were engaged in different activities around the room. One of the educators was playing cards with a group of children while another sat at a table with children. The educators were always seen taking interest in what the children were involved with.

The atmosphere of the room was calm and inviting.

All records and documents were easily verified by licensing staff.

I can recommend facility for licensing.
