Comments: Deficiency is now compliant			

General Comments
<p>Monitoring Inspection completed today.</p> <p>Educator and children were observed during a variety of activities throughout the morning. Educator was observed to respond to children's cues, knowing when they were finished eating, ready for a nap, and wanting to play. Educator engaged with child in play, encouraging her play, describing her actions back to her, and responding when she spoke. Child was interested in the laser measure that QA Monitor was using so educator provided a small flashlight for her and engaged with her as she shone it on different materials and in different areas of the indoor play area.</p> <p>Handwashing and diaper changing procedure were observed during inspection.</p>
