General Comments
Educator and the preschool children were in the outdoor play area during the inspection. Operator gave QA Monitor a tour of the indoor play areas, all classrooms are well-organized, tidy and clean. Materials are stored on low, open shelves to provide all children an opportunity to choose which items they wish to play with. The preschool room has two tables in front of the windows on which they are growing a garden of succulents. The garden is bordered on one side with rocks painted by the children, is well-organized and low enough for children to be able to participate fully in the care and maintenance of the plants.
