<p>General Comments</p> <p>Upon Licensing staff arrival for the renewal inspection, Educators were actively playing with the children at their level with magnet tiles and wooden blocks. The indoor space was organized and clean. Baskets and containers of play material were labelled and in good condition. There was a cozy corner with twinkle lights, elements of nature as well as a large bookshelf with many books. During inspection, there was music playing and Educators were engaged in conversation with the children.</p> <p>Later in the afternoon, Educators and children prepared for a field trip to a local farm. The first aid kit, attendance form, and water bottles were brought along. A head count was observed once the bus arrived at the farm and Educators held hands with the children. At the farm, positive words of encouragement such as "you are doing great!" were heard and questions about the animals and garden were used as learning opportunities. The children were excited to pick a few beans to bring back to the table area. Before eating, proper handwashing was observed, and songs were sung by Educators while washing hands. The children then shared fresh vegetables from the garden.</p> <p>During inspection, child and staff files were verified and all documentation was in order. The parent board in the main entry was organized and contained all licensing requirements. Monthly fire drills are being completed, allergy information was posted, and the daily snack menu was current. Please continue to work towards obtaining professional learning development hours throughout the licensing year.</p> <p>Licensing staff recommends for renewal.</p>
