General Comments
<p>When I arrived at the facility majority of the children were still napping. Proper child-staff ratio was being followed. The afterschool group was quietly playing lego and making paper air planes. The 3 year old group was reading a story about animals that live in the Ocean.</p> <p>Operator put up a fence in the afterschool play area to make the area safer as there is a steep bank behind the facility.</p> <p>Also discussed with the operator making changes to the infant room. Operator plans to remove the kitchen and take a wall down to add more space to the room. Operator will send in a change in service application before the change is completed.</p>
