ELCC Licensing Staff <b>Troy Williams</b>	Position Title <b>Quality Assurance Monitor</b>	

Order for Compliance	Regulation	Date to be corrected	Date corrected

**General Comments**

The children were in the outdoor play space having afternoon snack when I arrived. After snack the children were observed playing with bubbles, digging in the sandbox, climbing on the wooden climbing structure, washing cars at the water table and playing in the dirt with the dump truck and bulldozers. The educators were engaged with the children and attentive to their needs. There was plenty of communication between the educators when it was time to take children inside for bathroom breaks and when parents arrived to pick up the children. The educators were observed talking to parents, updating them on their child's day. According to the Administrator new fencing is to be installed by the end of the month. At that time the shade sails will be installed. As per the public health inspection report from October 15, 2025, "the windowsill in the playroom on the left side of the entryway is soiled and chipped. The windowsill must be cleaned and repaired to facilitate effective cleaning. Replace missing moldings around doors throughout the premises". This has not been done yet. Also, the floor molding in the bathroom is starting to come off the wall. This should be repaired as it is beginning to come apart from the wall.
