Name of Early Learning and Childcare Licensing Staff Nancy Glendenning		Position Title Inspector	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Children were seen moving freely between activities at time of visit. Children were observed to be playing cooperatively and singing during play.

The space used for early childhood learning is clean and bright offering a variety of materials to enhance children's learning. Operator has implemented a system for cleaning that still allows children to be introduced to a variety of learning experiences. The guidelines for Covid-19 have been implemented and are being followed.

Operator is very respectful towards each child. She engages in conversations and takes interest in whatever activity the children are engaged in. Gentle reminders are given to children to correct inappropriate or unwanted behavior.

Operator is aware of how and when to use potential illness forms but has not had to use them yet this year. Medications are not administered at this facility unless it is due to an allergy. Currently there are no children with underlying medical conditions at this facility.

Operator keeps a filing system that is organized and complete. Licensing Staff was able to verify information required for licensing.
