General Comments

The facility is responsive to children's needs and interests. The children were playing with games and running an office while one child surveyed everyone on their choice for cake toppings as they were celebrating some summer birthdays. The children get the opportunity to bake a cake for birthdays and decorate it. The children quickly cleaned up to eat and washed their hands. They all sat at one table talking with one another.

The large outdoor space has so many hidden joys, plants, and spaces to play. Some of the children played in the outdoor kitchen area while some others played games that the operator brought outside. One of the games involved strategy and programming as well as teamwork. The other game the children really enjoy is an eye spy game with photos of items throughout the space. The children were grabbing photos and running to find the items happily calling out to one another and the operator when they found it.

The operator is kind and gives gentle reminders to the children. The respect the children have for the operator was evident as was hers for the children. The children liked to share how many years they have been attending the home and how much they enjoy it.
