Order for Compliance	Regulation	Date to be corrected	Date corrected
12(2) An operator of a licensed facility shall ensure that a criminal record check or a vulnerable sector check, as the case may be, and a check with the Department of Social Development is conducted on each individual before he or she becomes a staff member.	12(2)	Oct 13, 2026	
Comments: While verifying staff records, the Quality Assurance Monitor observed that a Social Development Check was missing from one staff member's file. The administrator informed the Quality Assurance Monitor that the staff member had been employed at the facility since 2024 and that a Social Development Check had been obtained at that time. The administrator was unable to locate the Social Development Check for the staff member. As a result, the staff member was required to leave the premises and may only return once a new, complete Social Development Check has been obtained. Once the Social Development Check has been received, a copy may be submitted to the Quality Assurance Monitor via email.			

General Comments
The Quality Assurance Monitor is on site in the morning to conduct a monitoring inspection. The child to staff ratio was respected during the inspection. The following elements were verified: - Outdoor play area and materials - Staff members records - Checks - Qualification and training - Administrative records maintained on site - Premises - Safety - Nutrition The Quality Assurance Monitor had a discussion with the administrator regarding designation requirements. The administrator confirmed that the Quality Improvement plan is current and confirmed that the 10 hours of professional learning are on the way of being completed for this renewal year.

General Comments

The Quality Assurance Monitor observed the children finishing their morning snack (lunch boxes) and then transitioning to the outdoor play area. The children were observed engaging in various outdoor activities, including exploring a wooded trail, participating in outdoor play, and reading a story with an educator. The Quality Assurance Monitor observed an alphabet-themed ecology trail in the outdoor play area, providing opportunities for the children to develop early literacy skills while exploring their environment. An additional outdoor learning trail was created using the Peter Rabbit Trick-or-Treat storybook. The story was displayed on laminated pages along the trail, allowing children to follow and engage with the story while outdoors. The children were also observed transitioning back to the indoor play area. Educators were observed singing songs with the children and reading a book prior to lunchtime. A group of children had a picnic lunch outdoors. The Quality Assurance Monitor observed the transition to lunch (lunch boxes), followed by nap and quiet time. Positive interactions were consistently observed between the educators and the children throughout the monitoring visit.
