General Comments - Visit completed at the establishment in the afternoon for a monitoring inspection. - During the visit ratio was respected. - Posted in a visible and prominent place in the facility are the following documents: The licence, inspection report, orders for compliance, daily routine, evacuation procedures, name of administrator, name and telephone number of QA Monitor and inspector, when it applies a notice to inform parents of the existence of a communicable disease. - All children's files contained consent forms signed and dated by a parent or guardian. During the visit, 14 of the 24 children's files were verified. - Each child has an individual storage space for diapers and changing supplies. The changing table is equipped with a safety strap and covered with a non absorbent surface. It is separated from food preparation areas and is located one metre or less from a sink. Children are always supervised during diaper changing routines. - In the outdoor play area, the materials are varied and in sufficient quantity for all children present. - Observations: - Infant room: During the visit, the children were napping. The two infants who were not sleeping were engaged in free play activities with the educator. - 2-year-old room: During the visit, naptime and free play activities were observed. During free play, the children explored insects on the light table and played with sensory bottles. - 3-year-old room: During the visit, the children napped, created artwork, and participated in free play activities. - Discussions concerning policy 902.
