General Comments

On the day of my visit the 2 and 3 year olds were outside playing. The 4 and 5 group were finishing up snack and getting ready for outdoor play time.

The children gave me a tour of their playground. There is plenty of space and materials for the children to use. They were enjoying the slide, monkey bars, balance beam, mark making on the fence and running in the open space.

I inspected the facility. One educator was busy cleaning. The floors, tables and bathrooms were being cleaned while the children were outside playing.

As the children came in for lunch proper hand washing procedures were observed. The days lunch was rice , meatballs, carrots and apple juice.

There is evidence of planned activities and documentation. Some documentation is on the walls others are in binders. I spoke to one educator about having documentation in the classroom. Her documents are online for the parents to see. She will start a binder to keep in the classroom as well.
